

LE QUAN PHAT THANH

Ho Chi Minh City, Vietnam

(+84) 086 660 4660 | thanhle280603@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Final-year Information Technology student with practical experience developing modern React applications using TypeScript, JavaScript, REST APIs, and scalable frontend architectures. Experienced in building responsive user interfaces, integrating backend services, optimizing application performance, and collaborating within Agile development teams. Strong foundation in software engineering, testing, debugging, and Git workflows. Passionate about writing clean, maintainable code and continuously improving through modern frontend technologies, AI-assisted development, and engineering best practices.

EDUCATION

International University – Vietnam National University Ho Chi Minh City

Bachelor of Information Technology

Expected Graduation: 2026

GPA: 3.16 / 4.00

IELTS Academic: 7.5

SOFTWARE PROJECTS

VN Party – Real-Time Multiplayer Platform

2025 – Present

[GitHub Repository](#)

- Developed a production-scale React + TypeScript frontend communicating with Elixir/Phoenix backend services through REST APIs and real-time WebSocket communication.
- Designed reusable React components and optimized rendering performance for responsive user experiences.
- Managed complex application state and asynchronous interactions across multiplayer game workflows.
- Refactored frontend components to improve maintainability, readability, and scalability.
- Built automated testing and benchmarking workflows while performing debugging and performance optimization.
- Collaborated using Git workflows, pull requests, and code reviews throughout the software development lifecycle.

Dining Guide Web Application

2025 – 2026

[GitHub Repository](#)

- Developed a responsive restaurant discovery platform using React, JavaScript, Tailwind CSS, HTML5, and REST APIs.
- Implemented reusable UI components and responsive layouts following modern frontend development practices.
- Collaborated with teammates to develop new features, integrate backend APIs, and improve application usability.
- Participated in debugging, testing, feature enhancements, and continuous code improvements.
- Worked using Git-based collaborative development workflows.

Personal Portfolio Website

2025

Live Website

- Designed and developed a responsive portfolio website showcasing technical projects and frontend development skills.
- Focused on responsive layouts, user experience, accessibility, and clean component design.
- Optimized page performance and cross-device compatibility.
- Continuously updated the project using modern frontend development practices.

Panorama Stitcher Application2025

GitHub Repository

- Developed a desktop application using Python and OpenCV.
- Applied object-oriented software design, debugging, testing, and modular application architecture.
- Maintained project documentation and source control using GitHub.

PROFESSIONAL EXPERIENCE

Part-Time Coding and Robotics Lecturer2024 – Present

MindX Technology School

- Teach Web Development, JavaScript, Python, and software engineering fundamentals.
- Mentor students through frontend development projects involving React fundamentals, HTML, CSS, APIs, debugging, and best coding practices.
- Prepare technical documentation, project specifications, and learning materials.
- Collaborate with curriculum developers and instructors to continuously improve learning experiences.
- Became the first instructor in Southern Vietnam certified to teach Coding, Robotics, and Digital Art simultaneously.

Graphic Designer2021 – 2023

IU ArTeam

- Designed promotional assets while collaborating with multidisciplinary teams.
- Worked closely with stakeholders to translate requirements into visually effective deliverables.
- Developed strong UI aesthetics, communication, and teamwork skills applicable to frontend product development.

TECHNICAL SKILLS

Frontend	ReactJS, TypeScript, JavaScript (ES6), HTML5, CSS3, Tailwind CSS
State Management	Redux Toolkit, React Query (Academic Knowledge), Context API
Backend	REST APIs, JSON, Elixir/Phoenix, WebSocket Fundamentals
Programming	TypeScript, JavaScript, Python, Java, C
Software Engineering	Component-Based Architecture, Responsive Design, Testing, Debugging, Refactoring
Development Workflow	Git, GitHub, Pull Requests, Code Review, Agile Development
Testing	Unit Testing Fundamentals, Playwright (Learning), Performance Testing (k6)
Development Tools	VS Code, Linux, Postman, Figma
AI Productivity	ChatGPT, GitHub Copilot, Claude, Gemini

ACHIEVEMENTS

- Robot Creativity Award – Robogen Competition.
- First instructor in Southern Vietnam certified to teach Coding, Robotics, and Digital Art simultaneously.
- Pioneer instructor selected to introduce and teach the Robotics 4+ curriculum.
